Issue 66 — July 9, 2015

FEATURED

[Go, Open Source, and Community](#)

A transcript of Russ Cox's Gophercon 2015 keynote where he outlined the state of the Go project and how he sees things evolving. This is a must read if you didn't see the keynote.

OFFICIAL GO BLOG

[Handling 1 Million Requests per Minute with Go](#)

An engineer needed to build a system that could handle a heavy load (telemetry data POSTed from millions of endpoints). Here's his story of how he iterated on a solution using Go.

MARCIO CASTILHO

[Go 1.5 Beta 1 Released](#) NEWS

The final release is expected on August 1st.

GOLANG-NUTS

[RedisGreen: fast, reliable Redis support and analytics](#)

RedisGreen provides top tier analytics, hosting and support for the fastest Redis-backed applications. Sign up today and see the performance boost Redis can give to your system. RedisGreen supports and was built with Go.

REDISGREEN SPONSORED

[The Evolution of Go](#)

Notes from a talk by Robert Griesemer, one of the designers of the Go language, on Go's intent, the history of languages before Go, and the future for Go.

GOPHERCON 2015 LIVEBLOG

[Supercharging the Atom Editor for Go Development](#)

A look at tweaking GitHub's open source [Atom](#) editor for Go work.

MARCIO CASTILHO

[Go GC: Solving the Latency Problem in Go 1.5](#)

Notes from a GopherCon session on reducing Go's currently lengthy garbage collection pauses.

GOPHERCON 2015 LIVEBLOG

JOBS

[Want to work on new projects? Make more money? Try a new stack? Relocate?](#)

On Hired, we'll bring the options to you. With over 2,000 pre-screened tech companies in 10 cities in the US UK, you'll be sure to find what you're looking for. Join Hired today.
