## Go Newsletter

Issue 67 — July 16, 2015

### FEATURED

#### Securing Go Web Applications TUTORIAL

A look at a few Go packages that can help with securing webapps in areas like HTTP security headers, rate limiting, and CSRF protection.

*STABLELIB*

#### Go 1.5's vendor/ Experiment OPINION

A look at the practical outcome of the dependency vendoring 'experiment' in Go 1.5.

*FREEFORMZ*

#### GopherCon 2015 Closing Keynote: How Go was Made

Some great notes on Andrew's keynote. I don't think there's an official video yet but there's this [shaky attendee recorded one](#) if you want.

*ANDREW GERRAND*

#### Want to work on new projects? Make more money? Try a new stack? Relocate?

H I R E D

#### Writing iOS and Android Apps in Go

"Go version 1.5 is on the way later this summer. One of the more interesting features is the ability to cross-build apps for Android and iOS."

*SOURCEDNA*

#### Testing in Go

A look at approaches to testing in Go from a simple if statement through to testing concurrent code.

*NICK GAUTHIER*

#### There Will Be SQL

Jeremy Morony used Go as an excuse to go back to basics and work with SQL instead of an ORM.

*JEREMY MORONY*

#### Go Support Now Official on Heroku NEWS

Go is now a first class language over on the Heroku platform.

*HEROKU*

### JOBS

#### Go Developer at Namely (New York, NY)

Namely is an agile startup dedicated to building an end-to-end HR platform for businesses of all sizes. We're looking for a skilled front end developer to contribute ideas, innovation, solutions and code to our product.

*NAMELY*
