FEATURED

[The Go 2016 Survey Results](#)

Results from a December 2016 user survey, with commentary and insights from the Go team. Respondents praised Go's simplicity and would most like to see generics added to the language.

STEVE FRANCIA

[A Roadmap to Merging 'dep' Into the Go Toolchain](#)

The steps for [dep](#) to become Go's official dependency management tool.

GITHUB.COM

[A Story of a Fat Go Binary](#) STORY

The tale of building a simple IoT agent, how the resulting binary is a little.. *fat*, and how to use *gofat* to help surgically trim Go binary sizes down a bit.

DOTAN NAHUM

[Redis with HA](#)

RedisGreen helps companies run some of the largest and most scalable Redis deployments in EC2.
