FEATURED

Go 1.5 Released: The Sixth Major Stable Release

1.5 makes some key steps forward with the compiler tool chain now entirely written in Go (no C remains), a completely redesigned GC, new ports (including ARM64), and dev tool improvements. The release notes feature a full writeup. GOLANG.ORG

Packet Capture, Injection, and Analysis with Gopacket

The gopacket package provides a Go wrapper for libpcap which lets you capture network traffic live, analyse packets, and even send raw bytes via a network device.
